The New Seven Wonders of the World – Part 6 (Sydney Opera House in Australia)

This is part six in a series of photo journals meant to document the imaginary trip around the world of the students of Wichita Collegiate School’s Early Childhood division. Through physical activity, they are visiting the “New Seven Wonders of the World” and the fourteen remaining finalists.

It was fun visiting Australia. We learned about the Sydney Opera House, one of the 14 finalists in the New Seven Wonders of the World competition. It is the youngest of all the candidates, having opened in 1973. The structure sits next to the water and the roof of the building looks like the sails of a boat. The architecture is beautiful. We learned about other things in Australia, as well, including boomerangs, koala bears, and kangaroos. We had kangaroo races while sitting on the hippity hops. We sang “Waltzing Matilda” as we bounded across the gym floor.

Coming Soon: Part 7 of our world travels.
