

Dear workshop and convention participants,

Thank you for coming to my physical education web page. I hope you enjoy reading about and viewing some of the fun activities that my students do throughout the year.

Handouts from various workshops are included within this folder. Just hit the back button to close out of this document and you will see a list of handouts.

If you are interested in looking at some of last year's activities, hit the back button to close out of this document and click on the X in the right hand corner to return my main page. There you can click on the folders entitled, "Physical Education Activities from the 2008-2009 school year!" or "PE activities from the 2007 - 2008 school year!" There you will find lots of pictures and stories about games or special events that took place during the last two school years. There are several pictures on each document, so how quickly the document opens will depend upon the speed of your computer.

To view activities from the current school year, click on "Physical Education Activities from the 2009-2010 school year!" I try very hard to keep my web page updated throughout the year, so feel free to check back often to see what we are doing in Physical Education.

Sincerely,

Kathy Wagner
