

## Fall Brings Lots of Fun Activities

With the change of season, students enjoyed activities pertaining to leaves, pumpkins, and Halloween. We worked on skills like Frisbee throwing, rolling, striking, tagging, and dodging. Students also had fun learning the Skeleton Square Dance, which taught them about various bones in the body. It was great fun!

### The Skeleton Square Dance

The skeletons are just waking up.

Swing your skeleton partner.

Boo to your partner.

All you skeletons tap your skull.

Pat your femurs.

Touch your clavicles.

Hide your neck and dance with Dracula.

Twist your pelvis like Elvis.

Howl at the moon.
