

Welcome to Physical Education With Mrs. Wagner

I am excited to once again be teaching all the preschool and kindergarten students at Wichita Collegiate School. Be sure to ask your child about the activities we are doing and the information that they are learning in Physical Education. It is going to be a busy year and students will be very active!

This was our hallway bulletin board before kindergarten students added pictures of their favorite physical activities from the summer.

This is our hallway bulletin board that depicts how active students plan to be during the school year.

As we say in Physical Education:

A-C-T...I-V-E active is the life for me!
